AXELL ROJAS

IT SUPPORT SPECIALIST | WINDOWS & ACTIVE DIRECTORY | TECHNICAL TROUBLESHOOTING | IT OPERATIONS

Naranjo, Costa Rica | 6359-9128 | axelry2402@gmail.com | linkedin.com/in/axro | github.com/STXNES

PROFESSIONAL SUMMARY

IT Support professional with 2+ years of hands-on experience resolving technical incidents, monitoring critical systems in real time, and enforcing SLA/SOP standards within a 24/7 high-availability enterprise environment at Intel Corporation — a background that translates directly into service desk, technical troubleshooting, and IT operations work.

Hands-on technical experience with Windows Server 2022, Active Directory, Group Policy, VMware virtualization, TCP/IP, DNS, DHCP, Windows troubleshooting, and Linux fundamentals, built through enterprise-focused home labs and structured technical training.

Currently pursuing a Bachelor's Degree in Systems Engineering, with growing expertise across the Microsoft ecosystem (Microsoft 365, Entra ID, Intune, Azure), multi-cloud foundations (Google Cloud, Oracle Cloud Infrastructure), and data/reporting tools (SQL, Excel).

Seeking to bring proven incident-resolution discipline, technical documentation rigor, and a strong IT foundation to a Service Desk, IT Support, Desktop Support, or IT Operations role.

TECHNICAL SKILLS

IT Support & Operations: Technical Troubleshooting, Incident Management, Incident Documentation, System Monitoring, Ticket Escalation, SLA/SOP Compliance, Root Cause Analysis, 24/7 Operations

Windows & Systems: Windows 10/11, Windows Server 2022, Active Directory, Group Policy (GPO), User & Account Administration, File & Folder Permissions, Windows Services, Event Viewer

Networking: TCP/IP, IPv4, Subnetting, DNS, DHCP, OSI Model, TCP/IP Model, VPN & Remote Access Fundamentals, Basic Network Troubleshooting

Cloud Platforms: Microsoft Azure Fundamentals, Google Cloud Foundations, Oracle Cloud Infrastructure (OCI) Foundations

Virtualization: VMware Workstation, VMware ESXi Fundamentals, Hyper-V Fundamentals

Microsoft Technologies: Microsoft 365 Fundamentals, Microsoft Entra ID Fundamentals, Microsoft Intune Fundamentals, Azure Fundamentals

Linux: Linux Fundamentals, Users & Groups, File Permissions, Processes, Services, Basic Network Troubleshooting

Scripting: PowerShell Fundamentals, Python Fundamentals

Data & Productivity Tools: SQL (Intermediate), Microsoft Excel (Intermediate)

ITSM & Collaboration Tools: ITIL v4 Foundation, Jira Fundamentals, Scrum Fundamentals

PROFESSIONAL EXPERIENCE

Technician Operator | *Intel Corporation, Costa Rica* Dec 2023 – Dec 2025

Monitored and maintained mission-critical automated systems in a role built on the same incident-response, monitoring, and documentation discipline used in enterprise IT operations.

- Performed real-time monitoring of automated systems in a 24/7 high-availability environment, using system alarms, event logs, and process data to detect abnormal behavior and prevent downtime.
- Diagnosed and resolved technical incidents within defined SLA and response-time requirements, escalating complex issues to engineering and technical support teams — the same incident-management workflow used in IT service desks.
- Applied structured troubleshooting methodology (diagnosis, corrective action, verification, root cause analysis) to minimize downtime and restore system availability.
- Maintained detailed technical documentation, incident records, shift handoffs, and system status logs to ensure operational continuity across rotating teams.
- Collaborated cross-functionally with technicians, engineers, and operations teams to investigate failures, identify root causes, and restore systems to full operational status.
- Complied with strict SOP, quality, and safety standards in a mission-critical, process-driven environment.

CCTV Operator | *EYK Security, Costa Rica* 2022

- Monitored enterprise CCTV and access-control systems, identifying anomalies and security incidents in real time.
- Documented incidents and followed established escalation procedures for high-priority events.
- Maintained continuous monitoring and accurate incident records in a security-focused operational environment.

PROJECTS & HOME LABS

Enterprise Windows Server & Active Directory Home Lab | *VMware Workstation | Windows Server 2022 | Active Directory | GPO | DNS | Windows Client*

- Designed and deployed a virtualized Windows Server environment using VMware Workstation to simulate an enterprise client-server infrastructure.
- Installed and configured Windows Server 2022 as an Active Directory Domain Controller.
- Created Organizational Units, users, groups, and Group Policy Objects (GPOs) to simulate centralized enterprise administration.
- Configured a Windows client to join the domain and interact with centralized authentication and policies.
- Practiced user administration, permissions, DNS configuration, system troubleshooting, and basic infrastructure management.

EDUCATION

Bachelor's Degree in Systems Engineering — In Progress Expected 2029

Web Development Technician — Completed

Técnico en Informática — Completed

CERTIFICATIONS & TECHNICAL TRAINING

- CompTIA A+ Professional Preparation — Completed, IBM (Coursera)
- Akamai Technical Academy — Network Engineering Specialization, Coursera — Completed
- Microsoft Learn — Microsoft Entra ID Fundamentals, Microsoft Intune Fundamentals, Microsoft 365 Fundamentals
- Microsoft Azure AZ-900 — Completed, DataCamp
- Microsoft Azure AZ-104 — Preparation Completed, Level Up (Microsoft)
- Google Cloud Foundations — Certified, Google Skills
- Oracle Cloud Infrastructure (OCI) Foundations — Certified, Oracle
- Scrum Fundamentals Certified (SFC) — SCRUMstudy
- Jira Fundamentals — Soylider.net
- SQL — Intermediate, DataCamp
- Microsoft Excel — Intermediate, DataCamp
- ITIL v4 Foundation — Certification Preparation Completed, EDUCBA (Coursera)
- MD-102 Endpoint Administrator — Exam Scheduled October 2026

LANGUAGES

Spanish: Native | English: B1, transitioning to B2 — Certified by EF SET
